Gland condenser

An aerial photograph of a large industrial facility, likely a manufacturing plant or warehouse. The facility consists of several large buildings with various roof types, including a prominent white corrugated metal roof on the left and a large brown roof in the center. A red circle is overlaid on the image, highlighting a specific area in the foreground, possibly a parking lot or a designated site. The surrounding area includes paved roads, parking lots with several vehicles, and green grassy fields. A road runs along the right side of the facility, and there are some trees and landscaping elements. The overall scene depicts a large-scale industrial operation.
